AGENDA AT A GLANCE

The Deepfake Summit is a first of its kind executive forum that explores the complex and rapidly evolving world of deepfake technology. Join a diverse cohort of technologists, policymakers, legal experts, academics, and enterprise executives for a dynamic and provocative day of informed discussion, collaborative strategizing, and engaged problem solving to address the opportunities, challenges, and threats created by deepfakes.

Morning Keynote: Deepfakes - The Evolving Threat Landscape

Understanding Deepfakes

- Session: Fundamentals of Deepfakes - How They Work
- Session: The Ecosystem of Deepfake Creation Tools
- Interactive Workshop: Identifying Deepfakes - A Hands-On Approach

MORNING BREAK & NETWORKING

Deepfakes in Practice

- Session: The Use of Deepfakes in Media and Entertainment
- Session: Deepfakes in Politics - A Global Perspective
- Session: Legal Frameworks Around Deepfakes
- Interactive Workshop: Creating Purposeful Deepfakes - Guidelines and Best Practice

LUNCHTIME Panel Discussion: Future of Deepfakes: Opportunities and Challenges

Afternoon Keynote: Ethical Considerations and the Potential for Harm

Combating Deepfakes

- Session: Advances in Deepfake Detection Technology
- Session: Role of Industry in Combating Deepfakes
- Session: Community and Governmental Responses to Deepfakes

AFTERNOON BREAK & NETWORKING

Closing Panel: The Road Ahead - Collaborative Efforts to Safeguard Digital Integrity

The BIG Schmooze

- Cocktails, Appetizers & Networking.
- Vendor showcase featuring the latest in deepfake technology and detection methods.
- Deepfake Detection Hackathon
